

CAC - 628C 控制器 使用說明：

Specification：

|                       |                  |                       |
|-----------------------|------------------|-----------------------|
| Model                 |                  | CAC-628C              |
| Power source          |                  | AC：100V~240V 50/60HZ  |
| Output                | Voltage          | Depend power source   |
|                       | Control mode     | Control by Triac      |
|                       | Vibration mode   | Full wave / Half wave |
|                       | Max. current     | 5A                    |
| Features              | Run/Stop control | *                     |
|                       | Soft start       | 0 ~ 3 sec.            |
|                       | Second speed     | ---                   |
|                       | Output contact   | ---                   |
|                       | On / Off delay   | ---                   |
| Operating temperature |                  | ° 0 ~ 40 C            |
| Dimensions            |                  | 70.5W x 135H x 52D mm |

\* -----選配規格

面板配置圖

1. 電源開關
2. 速度粗調旋鈕
3. 速度微調旋鈕
4. 緩啟動旋鈕(0~3秒)
5. 全波/半波切換開關
6. 電源輸入:AC100V~240V 50/60 HZ
7. 連接振動送料機
8. 保險絲5A(ø5X20 mm)
